

# Selecting Emergency Care

## Trauma

Hamilton Medical Center Emergency Department treats traumatic injuries resulting from athletics, car accidents, and natural disasters.

## Stitches

Hamilton Convenient Care helps care for lacerations, cuts and other injuries that require prompt medical attention but are not emergencies. No appointment necessary with weekend availability!

## X-Rays

Hamilton Convenient Care treats muscle strains, joint sprains and fractures with on-site x-rays. If patients are in need of further medical attention, Convenient Care makes referrals to the Emergency Department or area physicians.

## Transportation

If you are unable to travel to Hamilton's Emergency Department due to severe injury or illness, call 9-1-1 and an ambulance will be dispatched to your location.

## After Hours

Hamilton Medical Center's Emergency Department cares for injuries and illnesses that require immediate medical attention at all hours.

## Cold & Flu

Hamilton Convenient Care treats patients experiencing cold and flu symptoms, nausea, diarrhea, earaches, sore throats, sinus problems and skin irritations. Convenient Care accepts most insurance plans.
